

ARTISTTALK

Christiane FESER

William CRAVIS

Tuesday, July 30th, 2019

Budapest Art Factory is pleased to invite you to an Artist Talk on Tuesday, July 30th, at 6.30 pm. International guest artists Christiane Feser (DE) and William Cravis (US) will talk about their one-month experiences and artworks created during their July residency at the Budapest Art Factory.

Christiane FESER, DE

Christiane Feser - visual artist lives in Frankfurt, and is represented by prominent galleries worldwide. Her artworks are based on photographs of abstract hand-made patterns cut out of paper. She concentrates on lights and shadows and creates abstract monochrome imagery. The shapes and structures on her works often remind us of architectural structures, still, they are enriched with their own new meaning in many appealing ways.

William CRAVIS, US

William Cravis - conceptual artist lives in Oregon. Bill works with materials he collects from his surroundings, often second-hand or even trashed objects that have no value in our society. While creating an art piece or a new object he transforms the materials to something valuable, and turn the stone into gold. This July, he made a giant inflatable dome from hundreds of second-hand plastic bags he collected locally. Visitors are invited to hang out inside.
